INDEPENDENT AUDITORS' REPORT

To the Shareholders of Securities & Investment Planning Company

We have audited the accompanying statement of financial condition of Securities & Investment Planning Company (the "Company") as of December 31, 2002, and the related statements of operations, changes in shareholders' equity and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Securities & Investment Planning Company as of December 31, 2002, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained on Pages 10 and 11 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the same auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole and in conformity with the rules of the Securities and Exchange Commission.

NOTE 1 - ORGANIZATION AND BASIS OF PRESENTATION:

Securities & Investment Planning Company, (the "Company") is a broker-dealer registered with the Securities and Exchange Commission and a member of the National Association of Securities Dealers, Inc. The Company acts as brokers in executing customers' orders for the purchase and sale of marketable securities on their behalf on a fully disclosed basis with a clearing broker.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The Company's accounting policies are in accordance with accounting principles generally accepted in the United States of America. Outlined below are those policies that are considered particularly significant.

(a) Use of Estimates:

To prepare financial statements in accordance with generally accepted accounting principles, management makes certain estimates and assumptions, where applicable, that affect the reported amounts of assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. While actual results could differ from those estimates, management does not expect such variances, if any, to have a material effect on the financial statements.

(b) Cash Equivalents:

The Company defines cash equivalents as all short-term, highly liquid investments with original maturity dates less than 90 days.

(c) Revenue Recognition:

Securities transactions and related commission income and expenses are recorded on a trade-date basis.

(d) Recent Accounting Pronouncements:

In July 2001, the Financial Accounting Standards Boards (FASB) issued Statement of Financial Accounting Standards No. 141, "Business Combinations" ("SFAS 141") and Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" ("SFAS 142"). SFAS 141 requires all business combinations to be accounted for using the purchase method of accounting and was effective for all business combinations completed after June 30, 2001. SFAS 142 requires goodwill to be tested for impairment under certain circumstances, and written-off when impaired, rather than being amortized as previous standards required. Furthermore, SFAS 142 requires purchased intangible assets to be amortized over their estimated useful lives unless these lives are determined to be indefinite. SFAS 142 is effective for fiscal years beginning after December 15, 2001. The adoption of these standards did not have a material effect on the Company's operating results or financial condition.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

(d) Recent Accounting Pronouncements (Continued):

On October 3, 2001, the FASB issued Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144"), that is applicable to financial statements issued for fiscal years beginning after December 15, 2001. The FASB's new rules on asset impairment supersede SFAS 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of," and portions of Accounting Principles Board Opinion 30, "Reporting the Results of Operations." This standard provides a single accounting model for long-lived assets to be disposed of and significantly changes the criteria that would have to be met to classify an asset as held-forsale. Classification as held-for sale is an important distinction since such assets are not depreciated and are stated at the lower of fair value and carrying amount. This Standard also requires expected future operating losses from discontinued operations to be displayed in the period(s) in which the losses are incurred, rather than as of the measurement date as presently required. This new standard will not have a material impact on the Company's operating results and financial position.

On July 30, 2002, the FASB issued Statement of Financial Accounting Standards No. 146, "Accounting for Costs Associated with Exit or Disposal Activities" ("SFAS 146"), that is applicable to exit or disposal activities initiated after December 31, 2002. This standard requires companies to recognize costs associated with exit or disposal activities when they are incurred rather than at the date of a commitment to an exit or disposal plan. This standard does not apply where SFAS 144 is applicable. This new standard will not have any impact on the Company's operating results and financial position.

On December 31, 2002, the FASB issued Statement of Financial Accounting Standards No. 148, "Accounting for Stock-Based Compensation-Transition and Disclosure" ("SFAS 148"), that is applicable to financial statements issued for fiscal years ending after December 15, 2002. In addition, interim disclosure provisions are applicable for financial statements issued for interim periods beginning after December 15, 2002. This standard amends SFAS 123 and provides guidance to companies electing to voluntarily change to the fair value method of accounting for stock-based compensation. In addition, this standard amends SFAS 123 to require more prominent and more frequent disclosures in financial statements regarding the effects of stock-based compensation. This new standard will not have any material impact on the Company's operating results and financial position.

(e) Fixed Assets and Depreciation:

Fixed assets are recorded at cost. All fixed assets are depreciated on a straight-line basis with an estimated useful life of 5 years.

Property and equipment at December 31, consists of the following:

Computer equipment	\$ 160,718
Furniture and fixtures	56,795
Leasehold improvements	1,913
•	219,426
Less: accumulated depreciation	(214,543)
. · · · ·	\$ 4,883

Depreciation expense aggregated \$19,799 in 2002. Maintenance and repairs are expensed as incurred.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

(f) Fair Value of Financial Instruments:

The carrying amount of the Company's cash, accounts payable and accrued expenses approximate fair value because of the short-term maturities of these items.

(g) Income Taxes:

The Company utilizes SFAS 109, "Accounting for Income Taxes" which requires use of the asset and liability approach of providing for income taxes. SFAS 109 requires recognition of deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method deferred tax liabilities and assets are determined based on the difference between the financial statement and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. Under SFAS 109, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

The Company has reflected an income tax provision of \$66,626 for 2002 which is solely the result of the reduction in the deferred tax asset associated with unrealized losses on sales of securities generated. The prior period financial statements had reflected a deferred tax asset due to the tax effect of its net operating loss. Since there is no assurance that the Company will generate future taxable income to utilize the deferred tax asset generated by the net operating loss carryforward, the Company has taken a full valuation allowance against the asset created due to the loss. The remaining deferred asset on the books of \$3,000, represents the future tax benefit of the unrealized losses in the Company's trading accounts which are expected to be recognized. The valuation allowance increased by approximately \$131,000 during 2002.

NOTE 3 - NET CAPITAL REQUIREMENT:

As a registered broker-dealer, the Company is subject to the Uniform Net Capital Rule 15c3-1 (the "Rule") under the Securities and Exchange Act of 1934. The Rule requires the maintenance of minimum net capital, as defined, and that aggregate indebtedness, as defined, may not exceed fifteen times net capital. At December 31, 2002, the Company had net capital of \$460,542 which exceeded its minimum requirement by \$360,542.

NOTE 4 - COMMITMENTS AND CONTINGENCIES:

- a) The Company entered into an operating lease on its office space commencing in February 1998 and ending December 31, 2002. The Company has the right to terminate the lease upon three months advance written notice in the fourth or fifth year of the lease, and exercised this right in November 2001. The Company is now renting the office space on a month-to-month basis, at a monthly rental expense of \$7,500.
- b) The Company is a defendant in a claim by J.P.C. Contracting Company, Stephen A. Paolino and Lee R. Paolino for in excess of one million dollars. The claimant accuses the Company of breach of contract as well as other claims. The Company feels that the claim is without merit and plans to vigorously defend said claim. In the opinion of the attorneys for the Company, it is premature to evaluate the claim at this time.

NOTE 5 - SIGNIFICANT GROUP CONCENTRATION OF RISK:

In the normal course of its business, the Company enters into financial transactions where the risk of potential loss due to changes in market (market risk) or failure of the other party to the transaction to perform (credit risk) exceeds the amounts recorded for the transaction.

The Company's policy is to continuously monitor its exposure to market and counter-party risk through the use of a variety of financial, position and credit exposure reporting and control procedures. In addition, the Company has a policy of reviewing the credit standing of each broker-dealer, clearing organization, customer and/or other counter-party with which it conducts business.

NOTE 6 - SUBSEQUENT EVENTS:

The Company is embarking on several new business lines in 2003.

The Company has an executed agreement with Fiserv Securities, Inc. ("FSI"), to conduct up to \$15 million in market timing business with a monthly fee payable to the Company of approximately 3% of the Company's monthly account average balance, and a charge payable to FSI of approximately 1% per month based on the same criteria.

Pursuant to an agreement executed in 2001 with Elite Mortgages, the Company plans to offer mortgage assistance to its customers in conjunction with the Company's primary business.

INDEPENDENT AUDITORS' SUPPLEMENTARY REPORT ON INTERNAL ACCOUNTING CONTROL

To the Shareholders of Securities & Investment Planning Company

In planning and performing our audit of the financial statements of Securities & Investment Planning Company (the "Company") for the year ended December 31, 2002, we considered its internal control structure, including procedures for safeguarding securities in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- Making quarterly securities examinations, counts, verifications, and comparisons
- Recordation of differences required by rule 17a-13
- Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining an internal structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of an internal control structure and the practice and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness or their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure, including procedures for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purpose in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and our study, we believe that the Company's practices and procedures were adequate at December 31, 2002, to meet the SEC's objectives.

This report recognizes that it is not practicable in an organization the size of Securities & Investment Planning Company to achieve all the divisions and duties and cross-checks generally included in a system of internal accounting control and that alternatively greater reliance must be placed on surveillance by management.

This report is intended solely for the use of management, the Securities and Exchange Commission, the National Association of Securities Dealers, Inc. and other regulatory agencies which rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and should not be used for any other purpose.

AZAR LEVINE & FELIX LLP

New York, New York February 25, 2003
